

The saving grace of an American citizen is his capacity for indignation over injustice, and I am sorry to report that one of the most flagrant cases appeared right here in Hope Monday.

Municipal Judge W. K. Lemley had before him one Winston Booth, pleading guilty to drunken driving in the automobile collision which seriously injured Mr. and Mrs. Charles Walker. But when the judge looked up the law to determine the maximum sentence there was a startling discovery.

Formerly it was mandatory for a judge to suspend the defendant's driver's license 30 days, to which could be added a sentence of 30 days in jail for drunken driving. But it was discovered Monday that the law of Arkansas had been changed in the 1951 regular session of the legislature.

Maximum sentence under the law, for a first offense, is a \$100 fine and one day in jail. That's all Judge Lemley could give for an offense that sent a man and his wife to the hospital with serious injuries.

Rep. Snellgrove of Craighead county introduced the new law as H. B. No. 82, and it was enacted without the knowledge of most of the state, apparently, during the uproar over public school finance. At least I never heard of it, and from what one attorney told me yesterday I don't think anyone else around here did.

I thought we had a so-called temperance lobby watching bills in the legislature. Or is it just a prohibition lobby?

If someone had attacked the local option law, or attempted to seize the liquor business and set up a state dispensary, there would have been a loud outcry. But a fundamental change is made in the police system for handling drunken drivers—and no one pays any attention!

The great "wet" states of America—New York, Pennsylvania and the rest—guarantee safety on the public highways. For what happened to Charles Walker and his wife they would have revoked the offending driver's license for at least a year, and put him under the jail to boot.

They are hard and tough states. They don't believe just putting a lot of words down in a law book makes people moral and wise. They hold every man strictly responsible when he gets behind a wheel and goes out on the broad highway—and the police and judges have their instructions.

It's time the people of Arkansas woke up.

This may not amuse the United States Treasury, but the story is going around Hempstead county about a local farmer who pointed to a fine looking cow and said, "That's my savings bond." And he continued:

"I won a savings bond prize. It cost \$75, and they said it'd be worth \$100 if I kept it 10 years. But shucks, I sold it right away, bought that cow—and she's already had two calves."

The multiplication of beef is greater, of course, than the multiplication of interest. And while beef stays high that's all right. But I wouldn't want mine all beef and no bonds. You can always sell a bond and buy beef—but I recollect a time here in Hope when you couldn't sell beef and buy a bond.

The best thing you can say about a government bond is that when it comes due everybody else has to sell everything they have—if necessary to pay you off. That's a unique quality I've never heard mentioned about beef.

William L. Ryan of the Associated Press reported Monday that Russia is speculating over the political fortunes of V. M. Molotov. He was supposed to be No. 1 man among the politicians, after Stalin—but the way the boys lined up in a new official photograph Stalin had now figures Molotov is no better than No. 5.

We Americans have heard of voting machines, but the Russians go one better. They just use a camera. And for democracy, you might say the Russian people are underexposed.

Tuition Payments for Local Negro Students Lagging

Parents of students in the Negro Schools of Hope, who have not paid tuition, are requested to pay up by the 15th of May.

The school has not received payments from all students and the payment of this fee is very necessary for the successful operation of school for the full nine months. Please give your cooperation.

Tuition may be paid to the principals at each of the Negro Schools.

Brother of Hope Man Succumbs

Funeral services for Phil Hatley, aged 50, native of Rogers, who died Monday at his home in Little Rock, will be held at 2:30 p. m. today in Little Rock with burial in Rosewood Memorial.

Ensminger Is New Coach of Hope Bobcats

Joe M. Ensminger was named today as head coach of Hope High School. Mr. Ensminger is a graduate of Centre College, Danville, Kentucky, where he lettered in football, basketball, and track.

He has 12 years of coaching experience in Mississippi, Michigan and Arkansas. His teams have won 65 games, lost 29, and tied 27 during his coaching career. His coaching experience in Arkansas has been in Hot Springs and Lakoside at Hot Springs.

Mr. Ensminger served in the U. S. Navy in World War II and was discharged as a Lieutenant, Senior Grade. He is married, has two daughters, and is a member of the Baptist Church. Mr. and Mrs. Ensminger and family plan to move to Hope about July 15. He will do graduate work the first term this summer.

Hope Woman Is State Delegate to Nat'l Circle Meet

The Twenty-third Convention of the Woodmen Circle in the Jurisdiction of Arkansas held in Little Rock last week elected Miss Lucille Wall of Hope, State Manager of the Society and Mrs. Roy Wheatley of Hot Springs, Past State President, as delegates to the National Convention to be held in Los Angeles in August.

Miss Wall, who recently moved to Arkansas from Dallas was also made an Honorary Past State President of the Convention.

Thirty-three delegates and twenty-one State Officers and fifty visiting members attended the three day Convention. Representing the Hope lodge was Mrs. C. F. Wiggins, Mrs. George Stroud, and Mrs. G. C. Coleman.

Mr. Murry, Attorney General of Arkansas addressed the Convention at a banquet in the Hotel La Fayette Hotel.

Mrs. Florence Jensen, Second National Vice President of the Society of Omaha, was present throughout the Convention, and she and Mr. Jensen drove to Hope where they were guests of Miss Wall, enroute to the Louisiana State Convention being held at Shreveport.

Zion Homecoming Date Changed

The annual Homecoming program scheduled originally for May 20, at Zion Church, 6 miles north of Ozan, has been postponed to Sunday, August 5, according to C. M. Lewis, church clerk.

A complete program will be announced at a later date.

Practically Every American Ground Commander Is Against All-Out Drive in Far East

By HAL BOYLE
New York —(P)—Will America be forced to fight a great land war in Asia—in the near or far future?

It is the belief of many army ground commanders in Korea that the American army should avoid an all-out war in that area if it is at all possible to do so.

The big lesson we have learned here, "one veteran officer told me, is not to get too deeply involved in this part of the world in ground warfare. It isn't for us."

His argument was that the continent of Asia favored the enemy method of infantry battle and hindered ours. It gives the other side every advantage. It holds none for us.

This officer—he had held a high staff rank in the European war—felt that to win an Asiatic victory through land battles would cost more blood than the American nation would spend.

It would bleed us dry," he said. The enemy has too much potential manpower and too much landscape. Taking landscape doesn't win a war—as Napoleon and Hitler found out in their marches on Moscow. You have to destroy the enemy, his industry—and his ability to resist."

He pointed out that Europe's final network had enabled the American army in the last war to utilize its superior mobility and mechanized firepower. Once our tanks and mobile guns had broken through the enemy's forward crust they could race at will through his rear lines and chop them up.

Pictured above is Charlie Taylor of the local Railway Express Agency and Sgt. Milton (Scrub) Mosier of the State Police shown delivering a mysterious and dangerous substance to the Saenger theatre to be exhibited for the showing of "The Thing."

This shipment had to come by armed guard and will be under lock and key while on display in the Saenger lobby.

Manager Eddie Holland said today that the only way he was able to get this picture booked in Hope was to agree to exhibit this dangerous and horrible contrivance and to open it to the public on the day before the picture played in Hope.

This newspaper will offer a prize of \$25.00 in cash to the person who writes a letter most closely describing the horrible contents of the box. Progressive clues will appear in this newspaper each day for four days. Contest ends midnight Tuesday, May 22. Send all replies may be sent in as new clues appear. There is no limit on replies sent by any one person.

120 Acres in Timber Off the Jim Henry Estate Reportedly Has Been Sold for \$68,000

State Officers Nab 3 Wetbacks

Three "Wetbacks" were picked up on the highway between Hope and Texarkana yesterday by State Patrolman Travis Ward, and Sgt. Charles Boyd.

The Mexicans who entered the U.S. illegally to work will be turned over to the Border Patrol today.

Perhaps the last sizable tract of virgin timber in Hempstead County has been sold to the Speer Lumber Company of Stamps for \$68,000, reliable sources said here today.

The tract was a part of the Jim Henry estate. Attorneys for the estate, Graves and Graves of Hope declined comment but indicated the timber had been sold.

The 180 acre tract is known as the Lithia Springs place and is located between the old CCC Camp and Spring Hill in southeast Hempstead, about 8 miles from Hope.

Approximately 120 acres in timber which had never been cut over, it was reported.

The heirs are Mrs. Dora Henry, widow of the late Jim Henry of Hope, and children.

Four Tires Are Destroyed on Two Vehivles

Vandalism hit something of a peak for Hope yesterday with two tires on an auto and two on a truck being cut to pieces with a knife, City Police reported.

The truck, owned by William Royston, negro, and the car owned by his sister, were parked in front of Royston's home on North Laurel.

Officers have a suspect in custody and indicated several witnesses will be called in.

Strange Things Happen Every Day

Providence, R. I., May 1 (AP)—The case of three teenage girls accused of forcing a man to be intimate with one of them was closed today—but not before they created a bedlam after juvenile court proceedings.

Because the girls are minors, the disposition of their case must remain secret under state law.

The rumors they caused, however, was no secret to anyone near by, court attaches said.

The girls, who were spectators, shouted jokes at the attorneys and loudly protested being restrained when taken from their cell to the courtroom yesterday.

State Police District Loses Two Patrolmen

State Police District No. 4, with headquarters here, has lost two of its patrolmen.

R. A. Andrews who worked out of Magnolia has resigned to accept a job as special investigator for the Lion Oil Co. at El Dorado, and Charlie Corrine, Stationed at Texarkana will go to the Lone Star Ordnance plant.

Travis Ward has been transferred to Hope from Texarkana on a temporary basis and will handle to patrol at Magnolia.

Strike in Detroit Hits New Crisis

Detroit, May 16—(P)—Detroit's 25-day-old strike of 3,700 A.F.I. transit workers reached a possible point of crisis today.

Mayor Albert E. Cobb and heads of the municipally owned street car and bus system were reported preparing to act on a proposal to seek a court injunction.

The city would ask a court order restraining strikers from interfering with operations of the big street car and bus fleet.

Union leaders have ruled that no cars or buses would run unless operated by union drivers under a union contract.

Acting under authority of the state's Hutchinson act forbidding strikes in public utilities, the city fired all the strikers. Penalties face them on a return to work.

The union, charging the act is unconstitutional, said its men would never return as long as the act was being invoked. An earlier attempt to reach a compromise failed.

The union went on strike April 21 demanding an 8-1-2 cent hourly pay increase. The city offered 5 cents, at the same time demanding removal of some of the added pay fringes.

The fringes bring the general pay average to about \$2.30 hourly as compared with the last hourly rate of \$1.67-1-2.

Leon M. Sipes Joins Texas Eastern Corp.

Leon M. Sipes has been appointed editor of publication for Texas Eastern Transmission Corporation, Jack Clarke, director of public relations announced today.

Mr. Sipes, formerly general manager of Radio Enterprises, Inc., of El Dorado, has been actively engaged in radio and editorial work since 1932 and has served as manager of Radio Station KELD since 1943.

Prior to that time, as assistant advertising manager for an oil company, he edited an industrial publication. He is past president of the Arkansas Associated Press Broadcasters Association and a member of the directors of the Arkansas Broadcasters Association.

Active in El Dorado civic affairs, Mr. Sipes has served as vice-president and member of the board of directors of the El Dorado Chamber of Commerce, publicity chairman for Community Chest and Red Cross Campaigns, and is chairman of the advertising and publicity committee of the chamber of commerce.

Mr. Sipes was born in Lewisville in 1911. He is a graduate of Little Rock High School and attended Hendrix college, Conway, and Ouachita college of Arkadelphia. He, Mrs. Sipes and their son will make their home in Shreveport.

1,400 Korea War Veterans Arrive Today

San Francisco, May 1 —(P)—More than 1,400 army veterans of the Korean war arrive today aboard the transport L. L. Raymond Beaudoin.

A noisy and colorful welcome was planned—a 17-gun salute, harbor fire boats, a sea of streamers of water into the air and military planes circling overhead.

A speech of welcome was prepared by a representative of L. L. Gen. Albert C. Wedemeyer, commander of the Sixth Army. Hollywood actors Dick Powell, Merced McCann, and Alexis Smith, Craig Reynolds and Rhea and Conte were on hand for the noon arrival (2 p. m., EST).

The 1,422 GIs represent practically every army unit fighting in Korea. They are the first combat troops returned under the army rotation program to land at San Francisco. A shipload of 95 burning marines docked here last night.

China Is Wrong Enemy Bradley Insists; Red Spearhead Near 38th

Tokyo, May 15 —(P)—Rain-drenched Chinese troops plodded south through central Korean mud today in their buildup for a new offensive.

Spearheads of a growing Red force facing the center of the 100 mile United Nations line were reported 12 miles south of the 38th parallel.

United Nations patrols spotted Communists in units of 500 or 800 snaking through the hills east of Kapyong. The U. S. Eighth Army did not indicate how close they were to U. N. lines.

But no fighting was reported from this area. Clashes elsewhere on the rain-swept battle line were between groups of 100 or 200.

The Eighth Army said the Reds east of Kapyong were south of the Pukhan river. This would put them 35 to 40 miles northeast of Seoul and roughly 16 miles northwest of Hongchon, U. N. base on the central front.

An Allied officer said well-protected U. N. positions and restless patrols probable would insure about 24 hours' warning before the Chinese hit in strength.

A central front briefing officer said the weather probably would speed up the expected offensive about two days. The strike generally is expected next week.

This is their "mont," one officer commented. The Chinese can do a lot of moving under these clouds without being seen from the air. They are undoubtedly taking advantage of it.

B-29s were out Tuesday despite heavy weather. They bombed the Sariwon supply center above the western front, by radar.

On the western front 10 Allied soldiers—eight Americans and two Turks—returned to their own lines after being released by Chinese. They were taken prisoner April 25 in the first spring offensive.

AP Correspondent John Rndolph said all told of comparatively good treatment by their captors. They said they were told never again to fight the Chinese, and released.

Rain washed out most fighting Tuesday.

Cut Brings Change in Distribution

Little Rock, May 15 —(P)—A reduction in available funds has necessitated a revision of the new formula, set out in a 1951 act, by which state aid will be distributed to local school districts.

State funds are expected to fall about \$7,000,000 short of the \$30,000,000 annually contemplated by the legislature when it passed the act.

The state board of education yesterday voted to reduce allowances for each item in the teacher-classroom unit established in the act.

The board considered an alternative method to keep the allowances as they were set up and to make a percentage reduction in amount of aid distributed.

Bell's Owners Now Number a Million; \$252,000 Spent on Hope Telephone System

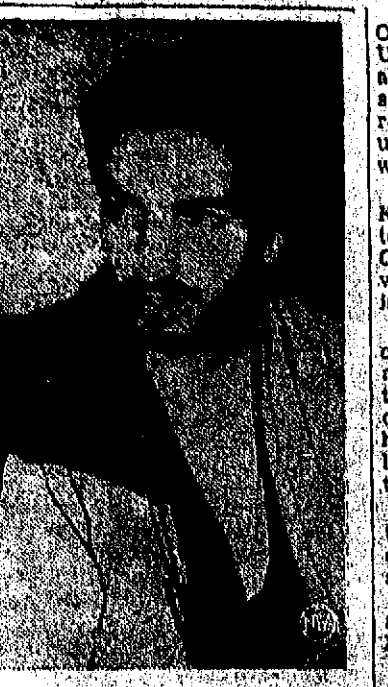

An automobile salesman and his wife in Saginaw, Michigan, brought seven shares of American Telephone and Telegraph Company stock recently and set a landmark in the history of American business.

Brady Denton, 33, and his wife, Dorothy, are the millionth stockholders of the Bell Telephone System, the first business in the United States to top the million mark in number of owners.

The Dentons, a typical American family living in a modest frame house in Saginaw, have three sons. They have never owned stock before but they have invested in the telephone stock because they want their three sons to have a college education. The boys are Brady, 6, Johnny, 3, and Bobby, 4 months.

The family got out of every \$8 in the United States now owns part of the Bell System. E. F. Fox, local manager for Southwestern Bell, said today in discussing the milestone.

"No other company has half as many stockholders. The number of Bell System owners in 118 times as large as the population of Hope," he pointed out. More than 1,300 Arkansas own telephone stock, along with the Dentons of Michigan. Approximately 250 shares are owned in the state now."

MORE POWERFUL THAN STALIN—Seyyed Navab Safavi, of "Fadayan Islam," the powerful nationalist organization responsible for the death of Prime Minister Ali Razmara of Iran, relaxes as he gives special interview to correspondent Joseph Masand, Safavi, who said he could wield greater influence over Iran's Communist than Joseph Stalin, said that "there are quite a few who must be pushed down the incline of hell." (NEA Telephone)

Highway 67 to Be Fixed Says McMath

Jonesboro, May 14 —(P)—Governor McMath said in an interview here today that United State Highway 67 would be in top shape within a year.

That was his comment to published reports Sunday that a Chicago motor club was reported to be re-routing southwestern-bound traffic around Arkansas to avoid Highway 67, which was diagonally across the state from Corning to Texarkana.

McMath said he would recommend an additional \$7,000,000 in secondary roads after the current primary roads have been completed. He said he wouldn't disturb this year's construction plans.

At Little Rock, State Highway Director J. C. Baker said about \$4,000,000 worth of construction has been programmed for Highway 67 and that contracts will be let during "this season."

He said no contracts had been let for the section of Highway 67 from Hope to Fulton, but that it was on the program list.

Baker said \$13,000,000 of this year's \$20,000,000 highway program has been programmed for primary roads. This ratio of about 2 1/2 to 1 Continued on Page Two

WEATHER FORECAST
Afternoon Partly cloudy
tered thunderstorms in
this afternoon. Light
Wednesday. Not much change
temperature.

Washington, May 15 —(P)—Omar N. Bradley said today the United States is not in a global show-down with the Red Chinese. He testified that he is not in the wrong war, but in the wrong enemy.

Nothing would do more to help the United States in this situation, than for this country to have a strategy and carry it out, he said.

The chairman of the Joint Chiefs of Staff was before the Senate Armed Services and Veterans Affairs committees at the time of the dismissal of MacArthur from his Far Eastern command. He had been in the United States since his return from Korea.

Bradley began by saying that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Bradley said it was just that the President, Secretary of State, and the Joint Chiefs of Staff have been overruled. He did not attribute blame to MacArthur, but MacArthur was not in the wrong war, but in the wrong enemy.

Bradley said that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Bradley said that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Bradley said that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Bradley said that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Bradley said that he was not in the wrong war, but in the wrong enemy. He said that he was not in the wrong war, but in the wrong enemy.

Happy Dunn Quits Police Force for Another Job

Bernard "Happy" Dunn, member of the Hope Police Force, has resigned after many years' service.

Dunn was born in the town of Hope and has been a member of the police force for many years.

Dunn was born in the town of Hope and has been a member of the police force for many years.

Poles Riot When Russian Seize Five

HOPE, May 15 (AP) — The New York Times reported today that more than 100 Poles rioted in the city of Lodz, Poland, after Russian soldiers seized five Polish citizens. The rioting broke out in the city of Lodz, which is one of the largest industrial centers in Poland. The Russian soldiers were reported to have seized the five Polish citizens in the city of Lodz. The rioting was reported to have lasted for several hours, and resulted in the deaths of several people. The Polish government has expressed its concern over the incident, and has demanded that the Russian government take action to prevent such incidents in the future.

Two Claim Presidency of College

Winter Park, Fla., May 15 (AP) — Rolling college was quieted down on the surface. But two men are claiming the presidency and more fireworks may be touched off before the ruckus is finally settled. Dr. Paul A. Wagner, 35-year-old president, was fired by a group of 11 trustees after a two-month wrangle. It began when he rejected that intercollegiate athletics and 25 of 76 professors were being dropped because of swindling. Dr. Hugh P. McKean, 42, professor of art, was named new president by the trustees Sunday night. But Dr. Wagner refused to step down. The powerful Wagner spent yesterday in the President's office and Dr. McKean occupied his own office. Students gave Dr. McKean, an avowed student-faculty meeting, the late yesterday. The trustees, who struck last week in order to bring the controversy to a head, started back to classes yesterday. One trustee, Dr. George Carleton of Jacksonville, assured the student body that the dropped faculty members and intercollegiate athletics would be reinstated. Dr. Wagner indicated he may resign to local action. In a telephone broadcast last night, he said he would resign.

THE MILLIONTH STOCKHOLDER of the American Telephone and Telegraph Company — the only business in the United States to achieve such a broad democracy of ownership — is represented by Mr. and Mrs. Brady, of Saginaw, Michigan, who jointly own seven shares of stock. Denton, an automobile salesman, and wife Dorothy and one of their three boys are shown above during a visit to their local telephone exchange. Johnny, in his father's arms, watches as Brady, Jr., 6, learns about switchboards operating from Miss Doris Seiler of the Michigan Bell Telephone Company. Brady's third boy is four months old (Born January 9, 1951) and so had to stay home with grandma.

Breaks Record for Flight in Light Plane

New York, May 15 (AP) — Max Conrad, the flying father, had a dip with Tin Pan Alley today. The 47-year-old commercial pilot flew in a tiny Piper pacer mono plane to set an unofficial record, or possibly two, for light planes. Now he wants to get some sort of an unofficial selling record for parttime songwriters. He said he brought four new songs with him and hoped to peddle them all in a day or so. Then he plans to return to his wife and nine children in Mirror Lake, Minn., outside Minneapolis. A tenth youngster is on the way. One of his songs was composed on a solo flight to Rome, Italy, last year, Conrad said. He added that he used a harmonica to write this love song, probably the only one on the market written on a transatlantic hop. Conrad said he practiced the tunes on his harmonica when he was not sleeping with bad weather on his record transcontinental flight. He landed here at La Guardia field yesterday afternoon 23 hours and four minutes after taking off from Los Angeles. John M. Jones made the trip in 30 hours and 47 minutes in 1938 to set the official record. Conrad's flight was not officially timed by the National Aeronautics Association, which keeps tab of records. There was the possibility that Conrad unofficially broke the non-stop record by carrying a load of gasoline over the light-weight limit. Johnny Mann set the 2,183-mile distance record last January between California and Florida.

China's

Continued from Page One

be thrust upon us," but he believes a policy of patience and determination without provoking a world war, while we improve our military power, is the one to follow. "There is a real danger" of Russian intervention if all-out war is carried to Red China, although it is "anybody's opinion" about the danger of the flak. "No proposed military directive of the joint chiefs in the Korean War has been disapproved because of state department objection, although there were differences over the Korean War before fighting broke out. "The first intimation" the joint chiefs had that Red China was intervening in Korea in force was when MacArthur asked Nov. 8 for authority to bomb the Yalu river bridges. "The Chinese Nationalist troops now on Formosa have very limited capabilities" and would be of limited use in offensive operations if they were brought into the fight against the Chinese Communists as MacArthur suggests. "He favors economic sanctions against Red China but opposes a naval blockade," as advocated by MacArthur — because it can be taken as an act of war and would not be effective unless all United Nations members joined in it. "The United States might stand the chance of losing some of our allies" if it carried the war to Red China. "Russian forces stationed in Asia have the capability of causing us a great deal of difficulty, in far the future." "MacArthur has argued that because of major difficulties, Russia should not undertake any major offensive in Asia. "China in Red China is on a war footing, does not guarantee the end of the war in Korea, and may encourage China to her knees. "It is our own feeling in a war against Red China would be a disaster." "Soviet military effort should be made to settle the present conflict without extending it beyond Korea. "But he added that if this proves to be impossible, then other measures may have to be taken. "Bradley hit hard at MacArthur's contention that the administration is fighting an appeasement war in Korea. "Some critics of our strategy say if we do not immediately bomb major concentration points and airfields in Manchuria," — as MacArthur has advocated — it is appeasement," Bradley said.

Military Has Safe Site Near Washington

Washington, May 15 (AP) — The defense department has selected locations outside Washington for a safe site in the event of an enemy attack on the capital. Reporting this last night, Secretary of Defense Marshall said the planning is similar to that being carried out in many other places in the United States. "It represents, he said, precautionary measures desirable in view of the continued tension in the world situation." Marshall said all employees of the defense department have received, they will shortly, notice of the plan to be in the event of an attack. There are about 140,000 department employees in the Washington area — nearly 30,000 of them working in the Pentagon, large nerve center of the defense establishment just across the Potomac river in Virginia. "The department said locations of the alternate headquarters" which have been selected will remain secret. Last summer the department announced that a communications center would be set up at Camp Ritchie, Md., near the Maryland-Pennsylvania boundary north of Washington. Speculation has been that would be a second Pentagon, but Marshall's memorandum to department employees indicated other sites have been picked too. In the event of an attack which might destroy our facilities for operating at our present headquarters," he said, we must be prepared to operate at locations removed from Washington. In the event of an attack which might destroy our facilities for operating at our present headquarters," he said, we must be prepared to operate at locations removed from Washington. Such alternate locations have been selected. For a short period following an attack, only the most vital functions would be performed at such alternate locations. It is, however, essential that our total functions be reconstituted as soon as possible.

Senate to Act on Grain to India

Washington, May 15 (AP) — Senators hoped to take action today on the controversial grain-for-India proposal by passing a compromise bill for 3,000,000 tons of food on a straight loan basis. President Truman asked congress to send relief grains estimated at 180,000,000 to India as a gift. "The food, largely wheat is needed to meet famine and starvation reported in some parts of India. "House leaders also put the relief proposal on their agenda today, but final action was not expected before late in the week. "Senator H. Alexander Smith (R-N.J.), who with a bipartisan group began pressing for the Indian famine relief last December, told a reporter: "Everything has been worked out and I expect the bill to pass today with little if any opposition." "He made to settle the present conflict without extending it beyond Korea. "But he added that if this proves to be impossible, then other measures may have to be taken. "Bradley hit hard at MacArthur's contention that the administration is fighting an appeasement war in Korea. "Some critics of our strategy say if we do not immediately bomb major concentration points and airfields in Manchuria," — as MacArthur has advocated — it is appeasement," Bradley said.

Workers Seek Bodies of 4 More Seamen

Norfolk, Va., May 15 (AP) — Sailors' union today demanded the bodies of four more seamen who died in a collision with a coal collier. The navy refused to predict whether any of the 2 men unaccounted for from the Tender USS Valcour's crew of 21 officers and men might be in the compartments — one of them a berthing space. It is probably, the navy said, that some of the men were on leave when the ship — loaded with 70,000 gallons of high-octane gas — was rammed and amidships while veering out of control with a jammed rudder. Naval spokesmen said a large crew was unable to enter the four compartments aboard the Valcour last night because of gasoline fumes. They also could not get into the engine room, where nine men were known to have died when they were trapped by flaming fuel. The Valcour was towed to a berth late last night off the Norfolk naval base. After all ammunition and gasoline have been removed, she will be taken to near by Portsmouth for repairs. A gaping hole in the bow and evidence of severe fire damage was found aboard the Tracy when she docked late yesterday under her own power at Newport News. But there were no serious injuries to crewmen. A court of inquiry composed of three aircraft carrier skippers was named to probe the collision. The navy said the two ships were headed in the same direction and the Valcour had passed the collier when a steering and power failure jammed the rudder. The tender cut across in front of the Tracy and was rammed.

Machinists, Lion to Talk It Over

El Dorado, May 15 (AP) — A negotiating session was scheduled today between the Lion Oil company and a striking machinists union. Ellis Watts, president of local 224, AFL International Association of Machinists, said the federal mediation and conciliation service had called the session. Local 224 has been on strike against Lion since May 4. Yesterday the Missouri Pacific railroad dropped legal action it had instituted against the local. The railroad had asked a federal chancery court for an injunction to prevent interference with switching operations onto property of Lion's chemical plant. Union attorneys said at a conference yesterday there would be no violation of the law by pickets. The railroad then withdrew its petition for the injunction. The union local said last week it

Three Dodgers Leading Bums

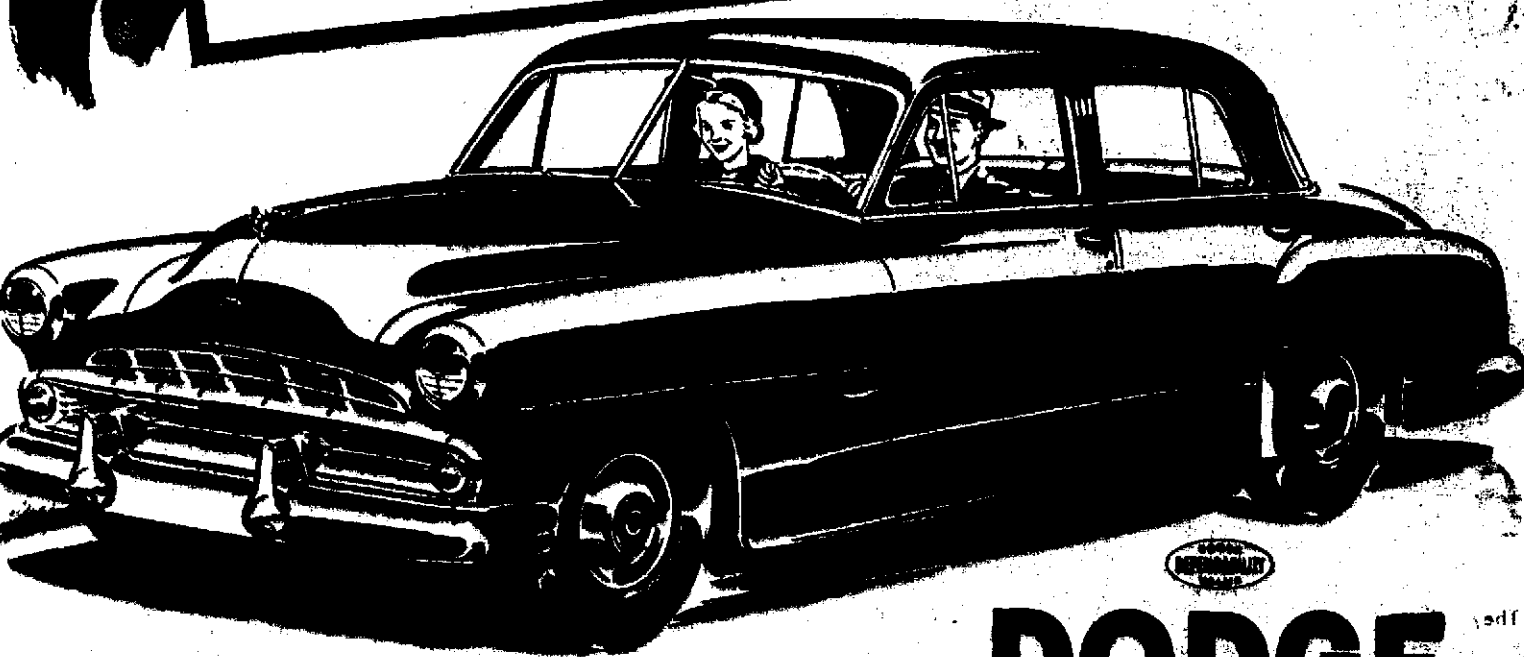

New York, May 15 (AP) — Jackie Robinson, Pee Wee Reese and Duke Snider are three solid reasons why the Brooklyn Dodgers lead the National league. Robinson, Reese and Snider are the top three hitters in the league with Jackie showing the way at .409. Robinson added nine points during the week while Snider pitched. Averages, including Sunday games, show Reese third at .371 and Snider eighth at .327. The Colorado River Basin is one of the most arid sections in the continental United States. It had complained to the national labor relations board that the Lion management had refused to gain in good faith on a new contract.

High school graduates... **BE A TECHNICIAN** **ENLIST IN THE U.S. ARMY NOW. LEARN A GOOD PAYING TRADE!** Army trade schools offer high school graduates the world's finest technical training... your choice of 23 technical schools! A chance to learn electricity, automotive repair, ship fitting, tailoring and many other excellent careers. You apply for the courses you want. On approval of your application, you enlist, get your basic training and then start courses in your chosen technical school. Consumer to Pay for Milk Strike

Chicago, May 15 —(AP)—A boost in the price of milk appeared a possibility today as a result of wage hikes granted 8,000 AFL dairy workers after a two-day strike.

The workers ended their walkout yesterday after a settlement with 75 companies. In addition to up-proving pay boosts, the companies agreed to a work schedule of seven days, with the 2,500 inside workers and 4,500 drivers getting six days pay for a five-day week effective Oct. 1.

Company spokesmen said the get n sponstmen said that on the proved working conditions would bring a milk price increase to the consumer of at least two cents a quart. The present price is 2 1/2 cents delivered to the home and 2 1/2 cents in stores.

Stalemate Over bridge Continues

West Memphis, May 15 —(AP)—The stalemate between Memphis and Arkansas over the value of the old wagonways on Harahan bridge continued today.

A conference over whether the rarely used wagonways should be torn down — as Arkansas contends — ended yesterday on an indefinite note. Another conference was scheduled, but no date set.

Memphis City Engineer Will Fowler and Judge W. K. Ingram of Crittenden county talked the matter over privately for 40 minutes yesterday. Both declined comment. Apparently the wagonways will remain open until a decision is made.

The country was authorized to rip up Arkansas' half of the wagonways and keep half of the salvaged steel as payment. The contract was drawn after the state highway department decided it would not spend another penny to keep the wagonways in repair.

The narrow Harahan wagonways are little used since the broad Memphis and Arkansas Mississippi river bridge was opened in late 1940. The Harahan is primarily a railroad bridge.

Memphis officials, in launching a full-scale

Fair
Enough

By Westbrook Pagler
Copyright, 1931
By King Features Syndicate.

Las Vegas, Nev., May 14 — I
have seen Reno and Saratoga,
Palm Beach, Miami Beach, Havana
and Monte Carlo, but a lot of them
together are scarcely more than a
basis for comparison in my deep
impression of Las Vegas.

It is hard to realize even after
several days, that gambling here
is no less legal and respectable
than the grocery business. Such is
our training, our habit of thought,
that an outsider cannot at once put
down a scene of such shock, why this
must be outrageous. This must be
a brazen, cynical and corrupt con-
dition. Where is the district attor-
ney? Where is Senator Kefauver?

Where are the cops?

I had the same sensation on my
first arrival in Reno, long ago, but
the impression had worn off and
anyway, this frantic, yet orderly
and apparently joyous traffic scene
was not so much money as lay
openly exposed on the tables, but
most of it was in stacks of silver
dollars, halves and quarters which
did not add up to much. And there
was one place on a busy corner in
the downtown section, The Gold
Nugget, which brings the pleasures
of roulette to the poor. The Golden
Nugget with noble candor has placed
the desert with its calling it
self, gambling hall, restaurant,
saloon. A man who had spent an
hour doggedly inching down several
stacks of 50-cent chips had been
arrived at the luck of a woman at
the same table who was having a
great run. She couldn't lose for
winning. She could hardly see over
her nose. But they were five-cent
chips. The Golden Nugget has large
signs along the highways with a
sign-painter's impression of a mug-
don in luminous paint which
glows enticingly at night.

The nickel slot machine is the
leading number in most of the
houses and I observed in several of
them that the nickel trade was by
far the heaviest whenever I hap-
pened to notice, whereas the dollar
machines often were idle. My im-
pression would be that the profits
from the 5-cent slots are small in
particular, but probably large in the
aggregate, both so many machines
almost constantly in action. Sen-
ator Molly Malone, a Republican,
says there is more gambling in
Washington, D. C., on the sneak than
there is in all Nevada under public
license.

Nick the Greek, a fabulous char-
acter, was said to be doing business
at one of the crap tables at the
Desert Inn, one night, and I was
told that a doctor and two other
clients had pooled about \$30,000 and
were playing a system at a roulette
layout. They were running ahead at
the time, playing the double-0,
three and five, and doubling their
bets occasionally. Two days later,
Tommy McGinty, of Cleveland, now
a partner of Wilbur Clark and oth-
ers in the Desert Inn, said they had
busted out.

There is no such thing as a
system," Mr. McGinty said. You
can get the same results with any
other combination of numbers.

Mr. McGinty has been with us a
long time, usually in the gambling
business but sometimes in real-
estate, while his and if not prob-
ably to gaming. One summer, long
ago, he put Danny Frush, an Eng-
lish featherweight, and a stylish
boxer, in against Johnny Dundee in
the Brooklyn ballyard. Mr. Dundee
was agile but notoriously harmless
so after he had knocked out Danny
Frush, Mr. McGinty was so un-
censored at his own gambling that,
in the privacy of the dressing-room,
he fetched him one with the back
of his hand, knocked him over the
rubbing-table and rendered him in-
sensible all over again.

I was asked, "Mr. McGinty said,
that if his friends would think he
had done business to enjoy an in-
tial advantage in the betting, be-
cause it was strictly out of the line for
Dundee to knock out anybody.
Fancy my embarrassment."

Mr. Clark is a man of grandiose
dreams and gaudy achievements.
His Desert Inn celebrated its first
birthday a few days ago. There
was a birthday cake the size of
Lincoln's log cabin and drinks were
on the house until late next morn-
ing. In 1929, Mr. Clark was a bet-
ting man in Phoenix. Now he has one
of the grand layouts in Vegas, a lux-
urious hotel and casino with the
customary swimming pool in the
same row with the Last Frontier
and El Rancho Vegas, institutions
of equal social grandeur which lie
across the highway. Mr. Clark now
has visions of an 18-hole golf ranch,
and he doubtless will go broke in
due course. A few miles farther out
of town, toward California, is the
storied Flamingo, promoted by a
mishapsome but generally roguish
urban crew just after the war. Fla-
mingo's late master, Bugsy Siegel,
was blown through with a rifle at
the Las Vegas Hilton in Beverly Hills
conversing with Allan Smiley, a Hol-
lywood bon vivant now jailed away
for selling his tongue with false-
hoods. Many of the owners of these
palatial plants are strangers in
town, though well connected of
course and familiar, for it doesn't
seem that the licenses go inat-
tively to parties having cordial po-
litical relations with Senator Pat
McCarthy.

A dealer at the Last Frontier, a
man from Newport, Ky., for many
years a region of local tolerance,
said there were no dealers on the
payroll the moment and some
hundreds more employed in the
playrooms who had excited the pro-
tection of the police. He said he
discovered a group of boys who
in unison, he had put in for cer-
tain from the local salaried of-

the American Federation of Labor
and had been hidden to go to it.
However, the dealers have stoutly
declined the spiritual and substan-
tial benefits of collective bargain-
ing.

El Rancho Vegas, Flamingo and
the Last Frontier keep luxurious
party boats on Lake Mead, the un-
believable fresh-water sea behind
the Hoover dam a half-hour away,
manned by pilots who know the us-
ual garrets by ear, there being no
ice house and get away from it
to the lakes and canyons, but the
action offered by bass and crap-
ple is erratic and quiet by contrast
with the excitement of Las Vegas,
so these pretty ships lie still a
dock below Lake Mead lodge for
days on end.

cago 3.

Pitching — Roe, Brooklyn 4-0;
Brecht, St. Louis and Klippstein,
Chicago 2-0.

Strikeouts — Jansen, New York
34; Spahn, Boston 32.

Irate Father
Leaves 3 Dead

Chicago, May 14 (AP) — A father's
objection to his daughter's mar-
riage to a man of a different faith
resulted in a triple slaying last
night, police said.

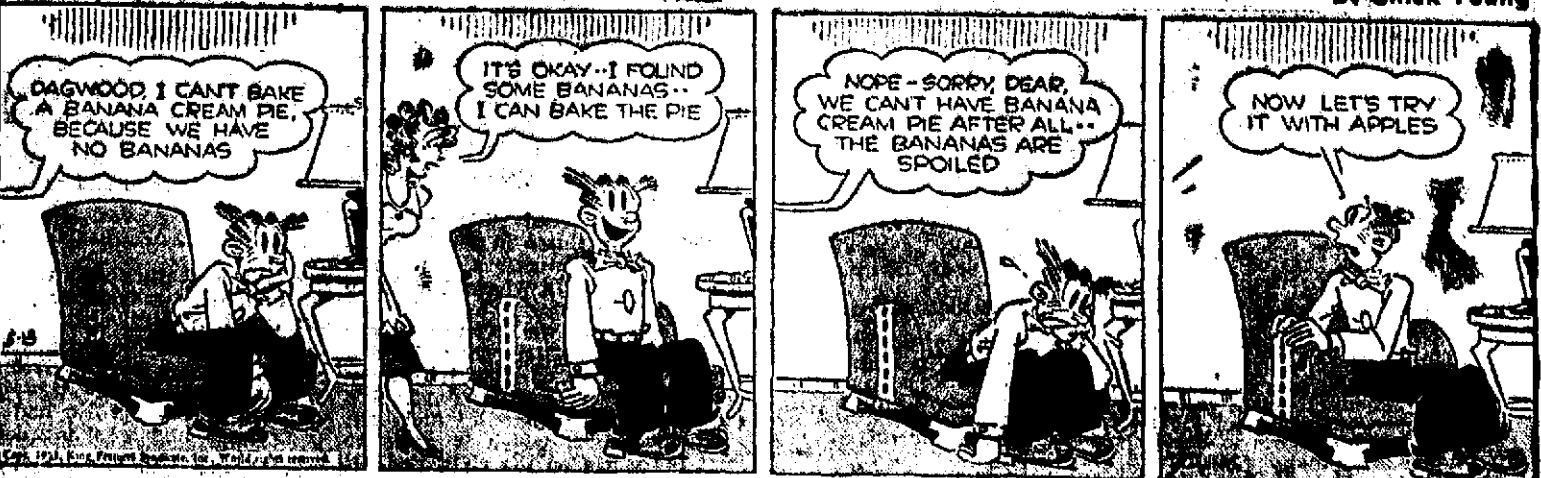

Police Lt. Matt Homer said the
father apparently shot and killed
his daughter and her husband, then
turned the gun upon himself.

Dead were Louise Hamilton, 63,
his wife, Elizabeth, 32, and the
woman's father, Stanley Novak, 63.

Homer said the dead woman's
daughter by a previous marriage,
Mary Strasser, 16, said that No-
vak, a Roman Catholic, objected to
the marriage because Hamilton was
Jewish.

Mrs. Hamilton and her first
husband, Fred Strasser, were di-
vorced three years ago, police
said. They said the Hamiltons
were married about a year
